

NEW IN TOWN?

We're here for you!

Helsingborg International Connections works in partnership with Helsingborg Municipality to provide a warm welcome and a supportive network for international residents.

We understand there's a lot to think about when you arrive in a new place. But don't worry, we're here to help.

HIC runs events in English to inform and connect the international community and holds a weekly drop-in session where internationals can ask questions about living, working and studying in our area.

We'll help you to settle in as soon as possible!
